TERMS AND CONDITIONS

TERMS—The terms are cash unless other arrangements are made with the consignor before the sale. All payments must be made to the clerk of the sale and no release of animals will be given until satisfactory settlement has been made. Purchasers from the U.S.A. are reminded that, in order to obtain export permits, it is necessary that payment be made in U.S. funds on which the legal exchange rate in effect at the time of sale will be allowed.

BIDS—The highest bidder shall be the buyer. In case of dispute, the animal shall again be put for advance bids and if there be no advance bid the animal shall be sold to the person from whom the auctioneer accepted the last bid.

RISK—All animals are at purchaser's risk as soon as sold but will be cared for free of charge for a reasonable time.

ERRORS—If typographical or other errors are noted in the catalogue, announcements of corrections will be made from the auction stand and such announcements will take precedence over matter in the catalogue.

CERTIFICATES—Each animal is recorded, or will be recorded, in the Herd Book of the Breed Association of Canada. Certificates of registry, transferred to the purchaser, will be furnished with each animal.

SHIPPING—Assistance will be given in loading and shipping animals but the management assumes no risk. In shipping, animals will be released at the regular railroad appraisal value unless other instructions are given. Hay, bedding and feed placed in cars will be charged for at cost. Crates for shipping by express will be furnished at cost.

WARRANTIES—(1.) Each consignor guarantees right and title to property. (2.) Unless otherwise noted in the catalogue or announced from the auction stand, each animal is sold as sound. (3.) Each animal is sold as a breeder subject to the following conditions:

A. Males—Should any bull, after reaching the age of 12 months, fail to prove a breeder after being used for four months on cows known to be breeders, the matter shall be reported in writing to the consignor who shall then have the privilege of four months' time in which to prove the bull a breeder before refunding the purchase price or making settlement satisfactory to the buyer.

. Females—Any female pregnant when sold or having calved normally within 90 days prior to the sale, shall be considered a breeder. Females bred when sold are pregnant to the best of the consignor's knowledge and belief, but this does not imply that pregnancy is guaranteed. Should any female, not pregnant when sold, after reaching the age of 18 months, fail to become pregnant within four months, after having been bred to a bull known to be a breeder and having been treated by a competent veterinarian, the matter shall then be reported in writing to the consignor who shall then have the privilege of four months' time in which to prove the animal a breeder before refunding the purchase price or making other settlement satisfactory to the buyer. The consignor makes no warranties that pregnant cows will deliver living calves nor that they will carry calves full time.

(4.) Transportation charges on any animals returned to the consignor shall be paid by the purchaser.

HEALTH—

TUBERCULOSIS—All animals are from herds that are Fully Accredited.

BANG'S DISEASE—All animals will have passed a negative Federal blood test within 30 days of the sale for which charts will be supplied. Charts will be supplied with animals sold as calfhood vaccinated.

FOREWORD

Between the book-ends in this catalog, presented for your careful consideration, are specimens of the Shorthorn breed that are the finest in type and pedigree which united effort and whole-hearted support could make possible.

As Sale Managers, we wish to express our thanks and sincere appreciation to all consignors, and to those who have helped in any way—large or small, to make this “Sale of Stars” possible.

We salute too, those breeders of an earlier day, whose time, effort and thought, heartbreaks and successful accomplishments, provided the stepping-stones for breed advancement. It is expected that the “Sale of Stars” will provide a leading inspiration for old and new breeders alike to continue the steady advancement of the Shorthorn breed in the beef cattle industry.

As you turn the pages, remember, that there is represented the highest calibre of breeding of the past and present—the future is in your hands.

YOU CAN ALWAYS TELL QUALITY

THE whole structure of our beef-producing industry rests on the foundation of animal breeding. The quality of our beef cattle set the standards—and progressive farmers pay close attention to their breeding program.

It has been estimated that less than fifteen percent of our beef cattle marketed in Canada rank in the top grade. The efforts to raise those standards by progressive farmers deserve the fullest support.

Thousands of Canadian farmers have obtained farm loans from The Canadian Bank of Commerce. Many of them were for the purpose of improving breeding stock. Your Commerce manager represents a bank that has for many years specialized in farm loans. He has the background of more than 83 years of Commerce experience in promoting better farming and looking after Canadian Farmers' banking needs.

THREE PROVEN LIVESTOCK SPECIALTIES that Assure Consumer Satisfaction and Continuous Dealer Profits

1

REX WHEAT GERM OIL

Rex Oil is in demand everywhere by owners of livestock, poultry, fur-bearing animals and petstock because it converts non-productive stock into profit makers. Rex Oil corrects shy breeding, prevents misses, abortion and sterility; livens up stud animals and overcomes many common non-organic breeding problems — it is the greatest known breeding aid.

Rex Oil is made from select Canadian wheat embryo by an exclusive cold-solvent process and contains chemical and biologically active factors not found in any other wheat germ oil. Rex Oil will not go rancid or lose its potency . . . it is always "fresh" and active . . . it is guaranteed to give results or money will be refunded.

2

"CALVITA" CALF SAVERS

A new but proven, practical and effective preventative treatment for Nutritional White Scours, pneumonia, rickets, and other early calfhood ailments.

"Calvita" Calf Savers provide in a convenient form mass quantities of Vitamins A, D and Niacin, making it possible for the breeder to supplement the feeding of his calves with these important factors during

the vulnerable first three weeks of a calf's life.

There are no sales problems with "Calvita" Calf Savers. Each box of 21 capsules is a complete treatment for one calf. Easily understood feeding directions are shown on each box. "Calvita" Calf Savers sell the moment they are displayed. Packed 12 boxes in attractive colourful counter display.

3

REXAND FEEDING OIL

A cold-cleared, free running base pilchard oil fortified with concentrated, stable Vitamin D and natural Vitamin A derived from shark liver oil. REXAND Feeding Oil is biologically and chemically assayed and standardized. It is guaranteed to contain not less

than the labelled Vitamin A and D potency. Packed for convenient distribution in 1 and 5 gallon containers attractively lithographed in three colours . . . with complete feeding directions clearly shown. REXAND is also available in 45 gallon drums.
